

Quadro RASTER absorber line

FEATURES Quadro Raster

Quadro raster panel® is made from acoustic foam coated with flock and designed for absorption in mid/high frequencies. The geometry and size of the raster make Quadro panel attractive solution for any room. Each panel has special air cavities and slots which extend the efficiency of the panel combining modern design and acoustic efficiency. The Quadro panel is commonly used to control reflections and excess reverberation, helping you maximize the performance of your listening space.

APPLICATIONS Quadro Raster

Residential premises, Open Space Offices, Call Centers, Phone Boots, Conference Rooms, Home Cinema, Classrooms, Auditoriums, Restaurants, Cafeterias, Performance Spaces, Server Rooms, Public Spaces, etc.
