

# Squad RASTER absorber line

## FEATURES Squad Raster

Acer raster® is made from acoustic foam shielded with 10% perforated MDF board designed for absorption in mid frequencies. The geometry and the size of the panels make Acer panel attractive solution for your recording or post-production studio. Each panel heart is made from 50 mm acoustic foam and covered with line perforated MDF finish. The Acer panel is commonly used to control the midrange frequencies, helping you to improve the performance of your studio.

## APPLICATIONS Squad Raster

Recording Studio, Broadcast studios, TV studios, Home Cinema, Music Rooms, Piano Rooms, Vocal Classrooms, Auditoriums, Restaurants, Cafeterias, Live Performance Spaces, Public Spaces, Receptions, etc.
